Summer

Math Packet Entering  
4<sup>th</sup> Grade

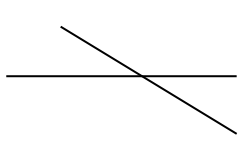

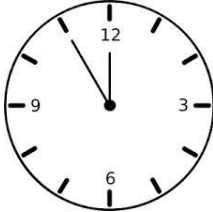

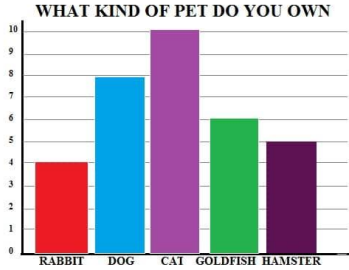

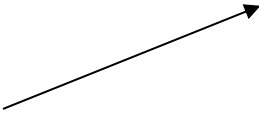

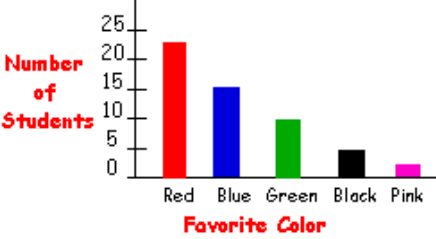

Dear Parents,

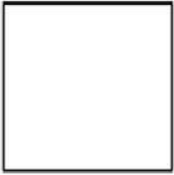

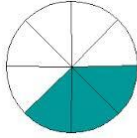

The intention of the summer math packet is to provide consistent math practice for your child in order to maintain math skills learned. Please have your child do one page of skill practice and one page of math facts each week of the summer. If your child has trouble remembering how to do a problem refer to his/her math notebook. If your child still cannot remember how to do a problem, I would recommend highlighting that problem so your child can ask the fourth grade teacher in September.

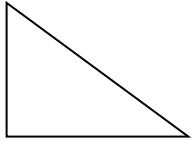

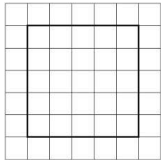

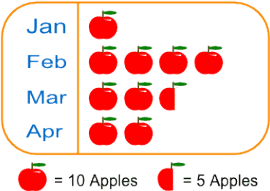

I have enjoyed teaching your child math this school year. I am proud of the progress the students have made in math. See you next year! Don't forget to show your work on all word problems !!!! Remember MATH is READING !!!

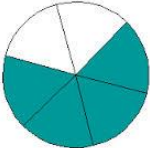

I hope your family has a safe and fun summer.
